2. DIRECTIONS

Topic

Please list specific supports and services that you would like to see incorporated into the funding formula for each category. (In other words, what supports and services do you think are most important so that the cost of those supports and services can be included. It does not mean a district MUST spend money in a certain way, only that they would be funded to do so).

Please prioritize each item as a:

- **Must Have:** Those supports and services required as a result of federal and/or state law, for safety, or similar.
- **Should Have:** Those supports and services that may not be mandatory but are essential to ensure the student or student group receives access to a quality education.
- **Nice to Have:** Those supports and services that are not mandatory and not essential, but (1) may provide a clear and added benefit to students and (2) have a clear return on the investment related to student achievement and future success.
- **Long Shot:** All other supports and services ideas.
