

2024-25 CTE Programs of Study

Tennessee’s career and technical education (CTE) programs of study are meant to provide a relevant framework of industry-aligned, rigorous courses that progress a student in knowledge and skills year after year. They provide invaluable opportunities for students to experience a subject that they are passionate about and explore interests that lead to postsecondary learning and future career paths. These sequenced courses also reflect and support the three-credit elective focus requirement for graduation. Year 1 courses are encouraged to be taken by students in middle school or ninth grade; however, districts may make scheduling decisions that work best for their communities and students.

¹ May count for a computer science course, a 3rd lab science credit, or a 4th math credit for the graduation requirement. A course approved to substitute for more than one graduation requirement can only be used by a student to substitute for one (1) graduation requirement course.

² May be taught for 1, 2, or 3 credits.

³ Satisfies the one fine arts credit required for graduation.

⁴ A student pursuing an Industry 4.0 diploma distinction may substitute their 4th credit of math with this work-based learning course.

Available courses for elective credit in this cluster:

- **Introduction to Geographical Information Systems (GIS)** (C18H39) is a supplemental course that can be offered in addition to courses within the Cybersecurity program of study but does not count toward concentrator status.
- **JAG TN Course I (C25H20), JAG TN Course II (C25H21), JAG TN Course III (C25H22), and JAG TN Course IV (C25H09)** are supplemental courses that can be offered in addition to courses within the programs of study but do not count toward concentrator status.
- **Preparing for the ACT, Postsecondary, and Career** (C25H19) is a supplemental course that can be offered in addition to courses within the programs of study but does not count toward concentrator status.
